Contents

An introduction to the Beyond El Niño conference: climate variability and marine ecosystem impacts from the tropics to the Arctic 1
—S. M. McKinnell, R. D. Brodeur, K. Hanawa, A. B. Hollowed, J. J. Polovina and C.-I. Zhang

Long-term variations of temperature and salinity of the Bohai Sea and their influence on its ecosystem 7
—C. Lin, J. Su, B. Xu and Q. Tang

The relationship between ENSO events and sea surface temperature in the East (Japan) Sea 21
—C.-H. Hong, K.-D. Cho and H.-J. Kim

Winter-to-winter recurrence of sea surface temperature, salinity and mixed layer depth anomalies 41
—M. A. Alexander, M. S. Timlin and J. D. Scott

The coastal ocean off Oregon from 1961 to 2000: is there evidence of climate change or only of Los Niños? 63
—R. L. Smith, A. Huyer and J. Fleischbein

Interdecadal variability of Northeast Pacific coastal freshwater and its implications on biological productivity 95
—T. C. Royer, C. E. Grosch and L. A. Mysak

Impact of El Niño events and climate regime shift on living resources in the western North Pacific 113
—T. Sugimoto, S. Kimura and K. Tadokoro

Temporal variations in lower trophic level biological environments in the northwestern North Pacific Subtropical Gyre from 1950 to 1997 129
—A. Limsakul, T. Saino, T. Midorikawa and J. I. Goes

The re-occurrence of sardines off British Columbia characterises the dynamic nature of regimes 151
—G. A. McFarlane and R. J. Beamish

Climate variability and marine ecosystem impacts: a North Atlantic perspective 167
—L. S. Parsons and W. H. Lear

Implications of variability on many time scales for scientific advice on sustainable management of living marine resources 189
—J. Rice

El Niño related interannual variations in biological production in the North Pacific as evidenced by satellite and ship data 211
—J. I. Goes, H. do R. Gomes, A. Limsakul, W. M. Balch and T. Saino

Interannual mesoscale physical and biological variability in the North Pacific Central Gyre 227
—C. L. Leonard, R. R. Bidigare, M. P. Seki and J. J. Polovina

ENSO related modulation of coastal upwelling in the eastern Atlantic 245
—C. Roy and C. Reason

Pacific Basin climate variability and patterns of Northeast Pacific marine fish production 257
—A. B. Hollowed, S. R. Hare and W. S. Wooster

The seasonal cycle revisited: interannual variation and ecosystem consequences 283
—D. F. Bertram, D. L. Mackas and S. M. McKinnell

Climate change, reproductive performance and diet composition of marine birds in the southern California Current system, 1969–1997 309
—W. J. Sydeman, M. M. Hester, J. A. Thayer, F. Gress, P. Martin and J. Buffa

Distinguishing coupled ocean–atmosphere interactions from background noise in the North Pacific 331
—D. W. Pierce

Spectral characteristics of sea level variability along the west coast of North America during the 1982–83 and 1997–98 El Niño events 353
—M. M. Subbotina, R. E. Thomson and A. B. Rabinovich

Lunar fortnightly modulation of tidal mixing near Kashevarov Bank, Sea of Okhotsk, and its impacts on biota and sea ice 373
—K. A. Rogachev, E. C. Carmack, A. S. Salomatin and M. G. Alexanina

Spatially-explicit bioenergetics of Pacific sardine in the Southern California Bight: are mesoscale eddies areas of exceptional prerecruit production? 391
—E. A. Logerwell, B. Lavaniegos and P. E. Smith

Cooling in the western Bering Sea in 1999: quick propagation of La Niña signal or compensatory processes effect? 407
—V. I. Radchenko, G. V. Khen and A. M. Slabinsky

A critical size and period hypothesis to explain natural regulation of salmon abundance and the linkage to climate and climate change 423
—R. J. Beamish and C. Mahnken

The pelagic ecosystem of the tropical Pacific Ocean: dynamic spatial modelling and biological consequences of ENSO 439
—P. Lehodey

The transition zone chlorophyll front, a dynamic global feature defining migration and forage habitat for marine resources 469
—J. J. Polovina, E. Howell, D. R. Kobayashi and M. P. Seki

'School-mix feedback': a different way to think about low frequency variability in large mobile fish populations 485
—A. Bakun

Stock assessment and management implications of horse mackerel (*Trachurus japonicus*) in Korean waters, based on the relationships between recruitment and the ocean environment 513
—C. I. Zhang and J. B. Lee

Archeological evidence of Pacific salmon distribution in northern Japan and implications for future global warming 539
—Y. Ishida, T. Hariu, J. Yamashiro, S. McKinnell, T. Matsuda and H. Kaneko

Long-term variations in abundance of Pacific herring (*Clupea pallasi*) in Hokkaido and Sakhalin related to changes in environmental conditions 551
—K. Nagasawa

Distribution and abundance of the Pacific sardine (*Sardinops sagax*) in the Gulf of California and their relation with the environment 565
—M. O. Nevárez-Martínez, D. Lluch-Belda, M. A. Cisneros-Mata, J. Pablo Santos-Molina, Ma. De los Angeles Martínez-Zavala and S. E. Lluch-Cota

Climate variability and pelagic fisheries in northern Chile 581
—E. Yáñez, M. A. Barbieri, C. Silva, K. Nieto and F. Espíndola

The jack mackerel fishery and El Niño 1997–98 effects off Chile 597
—D. F. Arcos, L. A. Cubillos and S. P. Núñez

Incorporating the dynamics of marine systems into the stock assessment and management of sablefish 619
—J. R. King, G. A. McFarlane and R. J. Beamish
